CAREER OBJECTIVE

As a passionate data science student pursuing an MSc at CHRIST (Deemed to be University), I am eager to apply my strong foundation in data analysis, machine learning, and programming to real-world challenges. My educational background in mathematics and statistics equips me with the analytical skills necessary for data-driven problem-solving. I am seeking opportunities to grow and make impactful contributions in the field of data science.

TECHNICAL SKILLS

- Programming: Python, Java, R, SQL
- Frameworks: Django
- Data Analysis: Pandas, NumPy
- Machine Learning: Scikit-learn, TensorFlow
- Data Visualization: Excel, Power BI
- Cloud Technologies: AWS, Azure
- Tools: Git, Visual Studio Code, Jupyter Notebook

PROJECTS

- **Analysis of "Let Us Dream" Triennial International Conference 2023**

Description: Developed a dynamic Excel dashboard to analyze data from the "Let Us Dream" Triennial International Conference 2023. The dashboard provided key insights into participant demographics, session feedback, and overall conference performance. Created a comprehensive report using Canva to visually present the findings.

Technologies Used: Excel, Canva

Outcome: Successfully delivered a detailed analysis and presentation, offering actionable insights for future conference planning.

- **Django Quiz Web Application**

Description: Developed a comprehensive Django web application designed for educational purposes. The app enables students to attempt a variety of quizzes and provides teachers with detailed analytics on student performance.

Technologies Used: Backend: Django, Frontend: HTML, CSS, JavaScript, Database: SQLite
